

COMET-P

The COMET range of hair dryers is ideal for use in the home and in public areas (e.g. hotels) with a traditional design.

■ COMET-P – wall mounted hair dryer

Designed for wall mounting, very lightweight, durable and allows easy installation in the chosen location. To avoid incorrect use, the unit is equipped with a safety lock which must be removed before first use. The terminal block is accessible on the back of the dryer when the cover is removed. Connection under the plaster or with a cable on the plaster. The dryer is equipped with international connectors (110-230 V).

- two power levels of drying
- automatic START/STOP system
- voltage 230 V/50 Hz
- overheating protection
- IPX0 protection

COMET-S

dimensions of the dryer: 270×90×220
